Re: Submission of New Project Proposal – Esker Gold Project Application #150859, 2025 Exploration Program

Dear Commissioners,
On behalf of Guardian Exploration Inc., we are pleased to submit a Project Proposal for the 2025 early-stage mineral exploration program at the **Esker Gold Project**, located near the eastern shore of South Henik Lake in the Kivalliq Region.

This submission is being submitted in parallel with **Application #150842 (Sundog)** located a short distance to the west but the 2025 Esker program is not contingent on the Sundog project approval. Should both permits be granted prior to the end of the 2025 field season, then both programs will be carried out.

Should you require any further details or documentation, we remain available at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. Kowal', is positioned below the word 'Sincerely,'.

Graydon Kowal

President, Guardian Exploration Inc.
