21. Additional Information (Attach additional pages if necessary.)

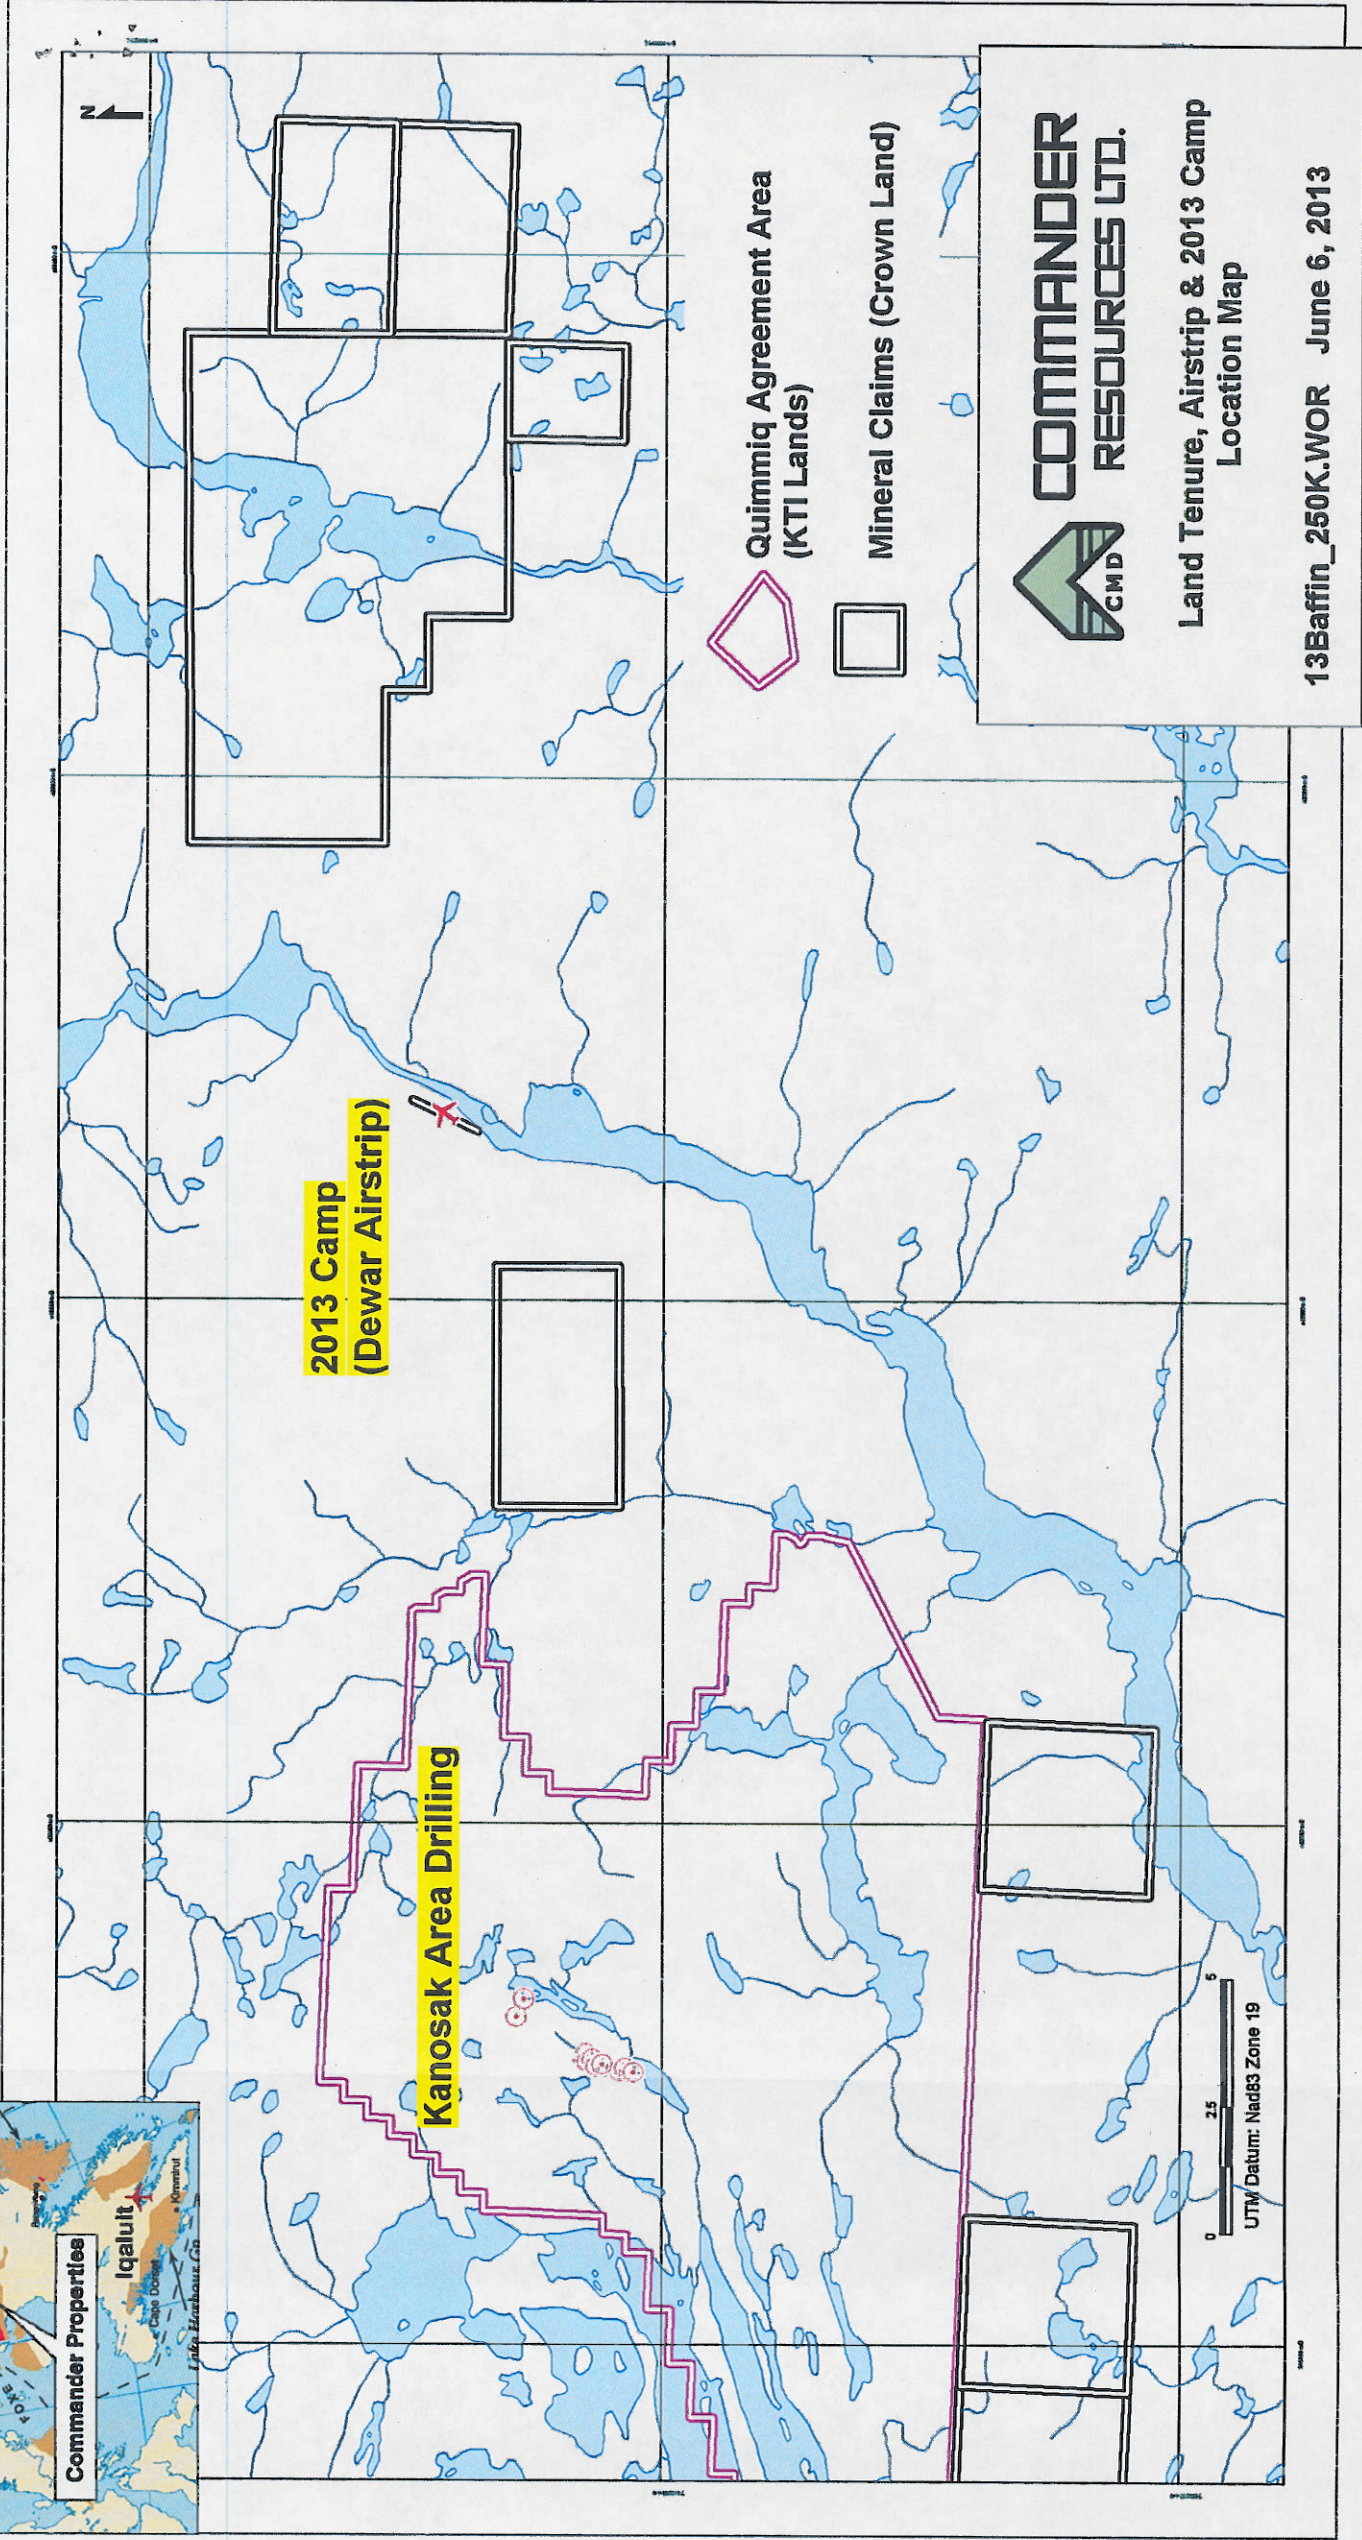

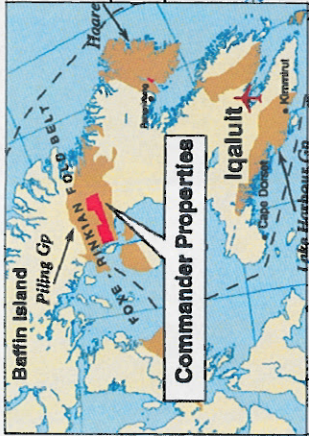

This permit is to cover the activities of the Dewar Lake camp site which has served as an operating base for Commander Resources Ltd since 2003. The camp is set up to house up to 25 people. The camp is winterized and not been in use since September 2010. However, Biogenie was contracted in 2012 to remove all empty drums, which they did do in April 2012. This is part of our remediation program.

We are working at attracting a joint venture partner to the project.
