Dear Mr. Holwell;

**Re: Commencement of Exploration – LUP N2005C0023**

Please be aware that Triex Minerals will be operating its spring/summer exploration program between April 20, 2008 and August 31, 2009. All locations of camp site, fuel caches and drill sites can be found in the original land use permit and its various amendments.

I trust that you will forward this letter by fax to the Resource Management Officer in the Kugluktuk office for his information.

Should you require further information please do not hesitate to contact me directly.

Sincerely,

**TRIEX MINERALS CORPORATION**

Anna North  
Land Manager
