Dear Jason Akearok:

Re: Land Use Permit #N2012N0015
Type of Operation: Research Project
Location: Queens Channel, Baffin, NU, NTS 68H16

Enclosed is your copy of Land Use permit number N2012N0015 authorizing your project as described in your application dated April 3rd, 2012, received by this office May 15th, 2012.

Your application has received a wide distribution through a Land Advisory Committee, which consists of other Federal departments, Government of the Nunavut departments, communities in the area of your operation and concerned Inuit groups. In distributing your application we sought comments from the Land Advisory Committee based on their area of expertise that will help ensure minimum negative impact on the environment. The issuance of this permit indicates that as a result of the Land Advisory Committee screening process it was decided that the potentially adverse environmental effects that may be caused by your proposal are mitigable with known technology and are not significant. The terms and conditions in the permit will, in our opinion, provide the necessary protection to the environment.

Please ensure that you adhere to the operating conditions annexed to your permit. Should you have any questions regarding any conditions of this permit, please contact Tracey McCaie at (867) 975-4283 or email, landsmine@inac.gc.ca.

Sincerely,

Tracey McCaie

31 (1) (h) - Wildlife and Fisheries Habitat

35	The Permittee shall not unnecessarily damage wildlife habitat in conducting this land use operation.	HABITAT DAMAGE
36	<p>a) During migration of caribou, the Permittee shall not locate any operation so as to block or cause substantial diversion of migration.</p> <p>b) The Permittee shall cease activities that may interfere with migration, such as airborne geophysics surveys or movement of equipment, until the migrating caribou have passed</p>	CARIBOU PROTECTION MIGRATION
37	The Permittee shall not harass wildlife. This includes persistently worrying or chasing animals, or disturbing large groups of animals.	NO HARASSING WILDLIFE
38	Your operation is in an area where bears may be encountered. Proper food handling and garbage disposal procedures will lessen the likelihood of bears being attracted to your operation.	BEAR/MAN CONFLICT
39	The Permittee shall restrict aircraft/helicopter activity related to the project to a minimum altitude of 610 m above ground level unless there is a specific requirement for low-level flying, which does not disturb wildlife and migratory birds. Ensure that aircraft maintain a vertical distance of 1000 m and a horizontal distance of 1500 m from any observed groups (colonies) of migratory birds. It is recommended aircraft avoid critical and sensitive wildlife areas at all times by choosing alternate flight corridors. The Permittee shall also advise all pilots of relevant flight restrictions and enforce their application over the project area and flight paths to/from the project area.	LOW LEVEL FLIGHT RESTRICTIONS
40	During the period of May 15 to July 15 when caribou are observed within 1 km of project operations, the Permittee shall suspend all operations, including low-level over flights, blasting, and use of snow mobiles and all terrain vehicles outside the immediate vicinity of the camps. Following July 15, if caribou cows or calves are observed within 1 km of project operations, the Proponent shall also suspend all operations in the vicinity, including low-level over flights, blasting, and use of snow mobiles and all terrain vehicles, until caribou are no longer in the immediate area.	WILDLIFE SENSITIVITIES
41	Prior to significant operational movements (i.e. before moving drill rigs), the proponent should undertake high altitude (>610 m) aerial reconnaissance with the assistance of an independent wildlife monitor, to determine whether caribou cows and calves are present within a 20 km radius of the camp or drill sites, or if caribou are migrating close by. If caribou are observed the monitor will instruct the proponent to suspend any activities within 10 km of the sightings.	RESTRICTION ON OPERATIONAL MOVEMENT

31 (1) (i) - Objects and Places of Recreational, Scenic and Ecological Value

42	The Permittee shall not feed wildlife.	NO FEEDING WILDLIFE
