**See attached list.**

5. a) Summary of operation (Describe purpose, nature and location of all activities.)

Refer to Section 22(2)(b) of the *Territorial Land Use Regulations* (Use last page of form if necessary.)

**This application is for exploration of Crown Lands. Starfield has been operating the Ferguson Lake project since 1999 concentrating on the project area located on IOL. Construction of the new camp, also located on IOL, began in the winter of 2006. An airstrip is currently being constructed at the new camp location. Starfield would like to now continue exploring claims within the property boundary, see attached map. Much of this ground is located on Crown Land. Exploration activities would include mapping, prospecting, geophysics and drilling. This project has undergone a conformity screening with NPC and has been screened by NIRB, the most recent of which involved the amendment to move the camp and construct the airstrip, see attached.**

b) Please indicate if a camp is to be set up (Use last page to provide details.)

**The camp is located on IOL, see attached map.**

6. Summary of potential environmental and resource impacts

(Describe the effects of the proposed program on land, water, flora and fauna and related socio-economic areas.)

(Use separate pages if necessary.)

**During all activities, every effort will be made to avoid disturbance to wildlife. Denning and nest sites will be avoided and the locations recorded and the information provided to the local wildlife officer and as an appendix in the annual reports required.**

**All archaeological sites will be respected and reported immediately. There will be no discharge of any kind in to any water bodies. Sumps at camp and at the drill sites will be located a minimum of 31 m from the normal high water mark of any water body. See the attached Spill Contingency Plan, and Abandonment and Reclamation Plan for more information.**

**APPLICATION FOR LAND USE PERMIT**

7. Proposed restoration plans (Please use last page if required.)

**All sumps will be covered as required. Empty fuel drums will be removed on a regular basis and at the end of the project all fuel drums will be removed from fuel caches. A final inspection of all sites occupied and or disturbed will be conducted. Please see attached Abandonment and Restoration Plan. All activities will be documented and photos will be taken to be included in annual reports.**
