Dear Ms. Arko;

**RE: Angilak Project – 2014 Annual Report on Work and 2015 Work Plan  
NIRB File Number 08EN052**

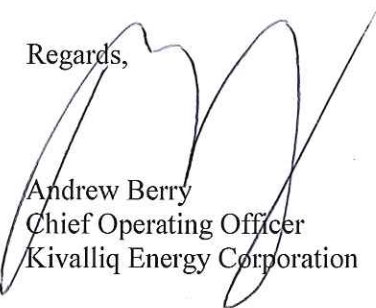

---

Kivalliq Energy Corporation is pleased to submit to NIRB an Angilak Property 2014 Annual Report and a 2015 Work Plan.

Exploration work conducted by Kivalliq in 2014 included 1,344 line kilometres of airborne geophysical surveying, the collection of 1514 soil samples and environmental baseline monitoring.

Kivalliq Energy's proposed 2015 exploration program includes 5,000 metres of diamond drilling, ground geophysical surveying, prospecting, soil sampling and continued environmental baseline monitoring. Drilling operations are planned to start at the beginning of July and will continue until the end of August.

Regards,

Andrew Berry  
Chief Operating Officer  
Kivalliq Energy Corporation
