DO NOT BURN PLYWOOD, CANS, METAL. ALWAYS CHECK BAGS. PACTO WASTE MUST BE LESS THAN 1/3 OF EACH INCINERATOR LOAD

DO NOT BU

Figure 4. Partially completed logs.

Figure 5. New water recirculation system implemented in 2013.

Figure 6. Mega-bag of sludge, weeping saline drill water. Must be contained, particularly on ice.

Figure 7. Warm and well-organized drill shack. Muds and oils all in a spill tray, bags for sorting garbage hanging on wall.

Figure 8. Areas of fuel (red circles) and salt (yellow circle). The rest is mostly drill and construction materials.

Figure 9. Tidy tank balanced on a small spill tray; does not provide room for the hose and nozzle etc.

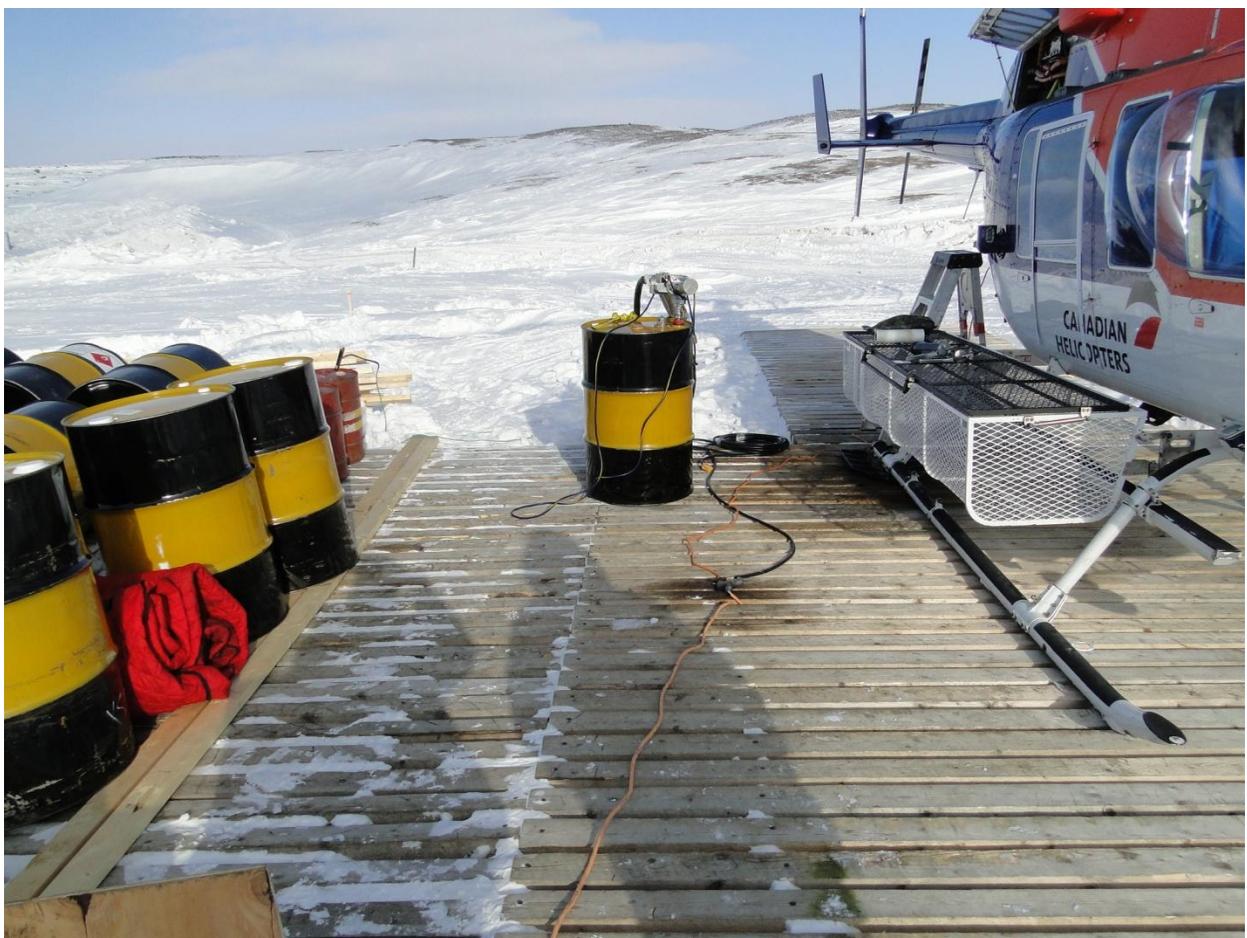

Figure 10. Barrels on heli-pad. Pump left in and spills visible. Liner under heli-pad recommended to minimize cleanup necessary in the future.
