Re: 2011 Annual Report for N201C0015

Dear Ms. Hanson,

In 2011, Sabina Gold & Silver Corp. sold the Hackett River Property and some additional claims previously held in the Wishbone claim group to Xstrata Zinc Canada (Xstrata). However, the 2011 work program based from the Hackett River Camp was operated by Sabina, with all expenses and hiring done through Sabina, with the exception of a small claim staking program, undertaken by Xstrata to fill in some holes in the larger Wishbone claim blocks.

Xstrata Zinc Canada now holds the permits and in order to comply with the terms of NIRB screening decision 04EN012, 06EN033, and 08EA084 is pleased to submit a report entitled "Hackett River Project, 2011 Annual Report For IN AC Land Use License N2010C0015".

If you have any questions feel free to call me at 807 - 251-3335 or e-mail me at

Sincerely, 

Scott Burgess, P.Geo. Hackett
