**Re: Commissioner's Land Use Permit Application – Repulse Bay, Nunavut**

Dear Mr. Mercer:

Please accept this letter as a formal request by North Arrow Minerals for a 2 year Commissioner's Land Use permit or lease of an area near the hamlet of Repulse Bay, NU. The area under consideration is the same as that covered by Commissioner's Land Use Permit LUP06-607-015 (expires Sept. 11, 2015). This permit was obtained to store fuel for the Qilalugaq Project bulk sampling program carried out from Repulse Bay, NU during summer 2014. North Arrow Minerals Inc. (North Arrow) wishes to use this same area beginning in July of 2015 for both expanded fuel storage, a laydown area for various material and temporary core logging facility (tents). Details of the location and nature of the land use are presented in the attached application.

Please note that in order for our work to proceed this summer this application will need to be received and reviewed by the Repulse Bay hamlet council at their next meeting which takes place on June 9th 2015. Anything you can do to ensure the application reaches council in a timely manner for the June 9<sup>th</sup> council meeting would be much appreciated.

Please also find enclosed the \$50.00 application fee.

If you have any questions in regards to this submission, please contact the undersigned.

**North Arrow Minerals Inc.**

**Mike MacMorran  
Geologist**
