

## Protocol

- On the advice of the Hamlet a Wildlife Protocol was adopted for the sampling program.
- Protocol was drafted in collaboration with the hamlet and approved by the HTO.
- The protocol focused on minimizing any impact on wildlife, in particular, the Caribou.
- Observed wildlife was recorded by the field crew in a daily log.
- Wildlife logs were shared with the Hamlet and HTO on a weekly basis.

## Actions Taken

- The log also documented any temporary measures taken due to wildlife sightings.
  1. Excavator shut down once due to caribou.
  2. Helicopter deviated 6 times off its flight path due to caribou.
