TITLE: Cambridge Bay Undersea Observatory.

OBJECTIVES OF RESEARCH:

Ocean Networks Canada (ONC) has been operating an underwater observatory in Cambridge Bay since September 2012. Underwater sensors and a camera provide continuous information on seawater properties, ice thickness and marine organism activity to a shore station located on the Cambridge Bay wharf where a small weather station is also located. Data from the underwater instruments and the weather station are transmitted by a WiFi link to a server in the Nunavut Government building, where data are transmitted via satellite to our ONC data centre at the University of Victoria and made available to all.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archeological sites terms and conditions. These terms and conditions will form part of this licence.

DATA COLLECTION IN NU:

DATES: August 07, 2012-August 31, 2017

LOCATION: Cambridge Bay

Scientific Research License 04 007 14R-M expires on December 31, 2014
Issued at Iqaluit, NU on January 24, 2014
