

MINERAL EXPLORATION CONSULTANTS

June 06, 2014.

Wynter Kuliktana, Lands Officer,
Kitikmeot Inuit Association,
Department of Lands & Environment,
P.O. Box 360,
Kugluktuk, Nunavut.
CANADA X0B-0E0

Dear Ms. Kuliktana:

Attached please find the Kitikmeot Inuit Association Access/Licence Application and all required supplementary documents as required by the KIA to process the Access Licence submitted on behalf of WPC Resources Incorporated for the Hood River Project. The HOODRIVER-001 MEA lies within CO20 IOL parcel.

Due to the lateness of the submission of the application the 2014 exploration season will be limited to geologic prospecting, geologic mapping and prospecting. Drilling will not commence until late 2015 or early 2016 as the property has to be evaluated by an archaeological survey during 2015.

WPC Resources has negotiated an arrangement with Elgin Mining Inc. whereby WPC crews will be accommodated at the existing and already permitted Ulu Mine Site. No camp will be established on the HOODRIVER-001 MEA Property.

I have strived to make the approval process smooth and efficient by supplying the Kitikmeot Inuit Association, the Nunavut Impact Review Board and the Nunavut Water Board with as much information as possible. If I have missed anything or you require additional information, please contact me and I will rectify the omission immediately.

The documents that comprise this application are listed below and are reproduced electronically. The electronic documents are contained in the enclosed CD in the following PDF files. They are listed below in the same order as in the printed hard copy that will follow in the mail.

Common Submissions (Sent to KIA, NWB and NIRB):

- 1-WPC FUEL SPILL CONTINGENCY PLAN
- 2-WPC ABANDONMENT and DECOMMISSING PLAN
- 3-WPC Wildlife Mitigation and Monitoring Plan
