SCIENTIFIC RESEARCH LICENSE

LICENSE # 01 022 15R-M

ISSUED TO: David Mate
Canada Nunavut Geoscience Office
Natural Resources Canada
PO Box 2319
Iqaluit, Nunavut
X0A 0H0 Canada

TEAM MEMBERS: C.Campbell,J.Kennedy,V.Barrie,T.Bell,R.Bennett,E. Edinger

AFFILIATION: Natural Resources Canada

TITLE: Seabed Mapping of Frobisher Bay to Support Infrastructure Development & Natural Hazard Assessment

OBJECTIVES OF RESEARCH:

Frobisher Bay is becoming a focal point for a range of new infrastructure development options that supports Nunavut Capital City and a natural resource development in the region. This includes a possible deep water port,fishing industry,mine at Chidliak diamond property,fibre optic cable connecting through the Northwest Passage and Hydro Electric dam site in the area. In order to support the evolution of this region,and its safe use by residents,an innovative partnership between the Canada-Nunavut Geoscience Office,Government of Nunavut's Nuliajuk research vessel and Natural Resources Canada will produce, the first ever,detailed maps of the seabed of Frobisher Bay

TERMS & CONDITIONS:

The holder of this licence will be bound by the terms and conditions from the Nunavut Impact Review Board Screening Decision Report and per the Department of Culture & Heritage Archaeological Sites Terms and conditions.

DATA COLLECTION IN NU:

DATES: July 01, 2015-December 31, 2015

LOCATION: Frobisher Bay

Scientific Research License 01 022 15R-M expires on December 31, 2015

Issued at Iqaluit, NU on June 05, 2015
