Dear Bob:

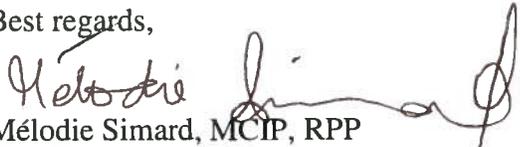

RE: Permission to use the Commissioners lands, as shown on SK-IQAL-001-2014 (maps 1-7)

On September 23, 2014, City of Iqaluit Council approved Survey Sketch SK-IQAL-001-2014 to facilitate the surveying of the future City of Iqaluit Aggregate Resource, known as the Northwest Iqaluit Aggregate Area and additionally the access road to this resource. The maps are attached to this letter for reference.

In the Spring of 2015, the City intends on commencing the road construction. The surveying of the lands is anticipated to occur the same summer. The lands in question are currently held by the Commissioner. It is our understanding that a license is required and that such a license is prepared and administered by Community and Government Services.

This letter is submitted to you to formally request that Community and Government Services review the City's proposal and prepare and administer a license for the lands noted above. The City is also seeking additional clarification on the quarry permitting requirements, if any.

Best regards,

Mélodie Simard, MCIP, RPP
Director of Planning and Development
