**Subject:** RE : 15EN049 - clarification on fuel transport

Hi Kelli,

You're right, for the file 15EN049, the fuel transport will be done by helicopter.

Regards,

David Frenette

Unnukkut David,

I am going to follow up Heather's email with one myself, I have been working on the file Kristina was previously working on and I have a fairly easy question for you.

You are planning on moving fuel by helicopter correct? It just wasn't totally clear in the file and I don't want to assume incorrectly.

Quana and I will be back at work on Thursday.  
Kelli
