**RE: Renewal of Permit to use the Commissioner's Land (LUP-06-600-013)**

Dear Ashley,

North Country Gold Corp ('NCGC') is a mineral exploration company that operates the Committee Bay Project located approximately 400km north of Rankin Inlet. NCGC uses Rankin Inlet as its logistical and operating base for all field activities undertaken on this exploration property.

NCGC presently has a '*Permit to use the Commissioners Land*' which covers a portion of Lot 11 within Itivia Industrial subdivision located within the Hamlet of Rankin Inlet. NCGC presently stores approximately 200 drums of P-50 diesel within a fully enclosed, covered instaberm along with 15 pallets of core boxes, 1 pallet of core box lids, 4 lifts of timbers and 1 sea shipping container.

NCGC respectfully requests that the Hamlet of Rankin Inlet renew the '*Permit to use the Commissioners Land*' (LUP-06-600-013) initially issued on the 10<sup>th</sup> September 2012 for a further 2 years (to September 2017). A payment of \$810 is attached to cover lease fees for September 2015 through September 2016.
