Dear Ms. Ohokannoak, Mr. Ruediger, Mr. Mercer, and Ms. Proenza:

**RE: NPC File # 148337 Committee Bay Project**

The following works and activities have been proposed in the above-noted project proposal:

1. Increase in storage at previously approved site (Lot # 11 within the Hamlet of Rankin Inlet under the permit LUP-06-600-13); from 73,800 L (360 drums) to 820,000 L (4,000 drums) of P-50 diesel fuel.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The NPC previously reviewed works and activities associated with the current proposal and conformity determination issued March 3, 2007. This conformity determination still applies. In addition, associated activities were previously reviewed by the Nunavut Impact Review Board (NIRB File No.: 07EN021).

The NPC has determined that the above-noted project proposal is a significant modification to the project, as its purpose is to amend its storage permit from 73,800L to 820,000 L. The project proposal conforms to the Keewatin Regional Land Use Plan (KRLUP), subject to the attached conformity requirements from the KRLUP that are applicable to the project proposal.

The project proposal requires screening by the Nunavut Impact Review Board (NIRB) because it does not belong to a class of exempt works or activities set out in Schedule 12-1 of the Nunavut Land Claims Agreement. By this letter and additional enclosures, the NPC is forwarding the project proposal with this determination to the Nunavut Impact Review Board (NIRB) for screening. Project materials are available at the following address:

<http://npc.strata360.com/portal/project-dashboard.php?appid=148337&sessionid=>

The applicant has undertaken to comply with the attached conformity requirements. The regulatory authorities to which this letter is addressed are responsible under the Nunavut Planning and Project Assessment Act (NUPPAA) to implement any of the attached requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

This conformity determination applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licences, permits and other authorizations in respect of projects if a review by the NPC is required. Regulatory authorities may consult with the NPC to obtain recommendations on their duties to implement the existing land use plans prior to issuing licences, permits and other authorizations under subsection 69(6) of the NUPPAA.

My office would be pleased to discuss how best to implement the attached requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 857-2242.

Sincerely,

A handwritten signature in black ink, appearing to read 'Peter Scholz', with a long horizontal stroke extending to the right.

Peter Scholz  
Senior Planner,  
Nunavut Planning Commission
