

- c. Auryn Resources Inc. acquired by North Country Gold which uses Lot I-11 at Itivia for storing drums of fuel. Currently, NCG is permitted to store 73,000 litres of fuel (or 360 drums). NCG is proposing to store an additional 820,000 (or 4,000 drums). NIRB requires the applicant to acquire approval from the Hamlet prior to screening.

Res. No: 114-16

Moved by: H. Towtongie

Seconded by: M. Hickes

To support additional 4,000 of drums of fuel with NIRB approval with the condition that Auryn Resources will attain 3 lots, (P2, P3, and P4) and that NIRB will have no major issues.

Yard inspections this Wednesday August 10, 2016 with Ashley Ymana, Martha Hickes and Robert Janes.

Selma Eccles – School starts Friday the 12th. Want to meet with the DEA to discuss where the classes exit LUS. Maybe speak w LUS Staff for their recommendation on exits. As well, Chris and I have started walking to work and realize there are no sidewalks in town, no place for pedestrians. We need sidewalks or lines to separate roads/sidewalks.

Theresie Tungilik – Back from holidays, good to be back. Wondering of Monica’s Ugduk’s house was fixed. Harry Towtongie replied that they are raising the house and adding gravel. Theresie also mentioned that it’s getting close to fall/winter time and that there are still no light poles on Ayaruak Street even when Power Corp said they would install two more poles – there’s still nothing added. Also, we need to do something about the complaints were getting about speeding ATV’s and young drivers. Council wants to ensure that RCMP and By-Laws are doing their job and enforce the by-law.
