NIRB,

Apologies DFO'S comments are not in the format requested though as mentioned earlier DFO did not see this notice of Screening in time.

Following a quick review, DFO's comments to Agnico Eagle are as follows:

DFO could not locate any mention of mitigation measures when crossing any of the water bodies.  
DFO would be happy to provide such measures via a letter of advice prior to AEM beginning this work.  
Please contact Elizabeth Patreau referencing DFO file NU-15-1366.  
Thank you

NIRB,

It has recently come to DFO's attention that some email notifications were not received by our general inbox in Burlington, and therefore we may have missed commenting deadlines for some projects. I'm not sure if this is due to the glitches with the NIRB Enterprise system or if it is on our end.

We will endeavor to correct this asap. With specific reference to the Parker, Peter and Fox Lakes Project, DFO notes the Screening is already due to commence on Dec.15, 2016 and DFO missed providing comments.

I'm inquiring if it is at all possible for DFO to provide any comment prior to the completion of the Screening?

Thank you,

**Elizabeth Patreau**
