Yes that's correct.

Hi Denise,

Yes I was aware of the offer but not the results. So just to confirm, remediation of the Shear camp has already been performed and will not be part of the project proposal?

Thanks,  
Davin

Dunnedin made the offer - you will see the letter to the Kia. That being said, the KIA did not take Dunnedin up on the offer and has cleaned up the camp.

Hi Denise,

In going through the documents received as part of the application I've noted that in the project support letters, it is highlighted that Dunnedin has committed to remediating the abandoned Shear campsite around Josephine River/Lake. However, I haven't been able to locate information elsewhere within the application that speaks to this commitment and the associated activities. While I confirm with the NPC that this activity was considered as part of their conformity determination, can you provide an outline of what kind of remediation operations would be undertaken? This information will be required as part of your project proposal, but pending your response I'll direct further on how best to submit the information.

Thanks,  
Davin
