Subject: RE: NIRB 15EN028 - Winter Road/Trail Development and Bulk Sampling Question

Hi Denise,

Thanks for the submission, just reviewing the information now.

On another note, could you confirm that the bulk sampling program being proposed would include the sampling of up to 500 tonnes/site at three (3) sample sites – Kahuna, PST, and Notch (which includes Notch North, Central, and South) – for a total sampling program of up to 1,500 tonnes over the span of the proposed program, not per year.

Thanks in advance for the clarification,

Davin
