TEAM MEMBERS: E. Kenchington, C. Campbell, C. Jauer

AFFILIATION: Natural Resources Canada

TITLE: Geology Research in Baffin Bay.

OBJECTIVES OF RESEARCH:

Since 2012, Natural Resources Canada has been conducting research on the marine geology of Baffin Bay. The purpose of this research is to understand the geological history, processes and geological hazards offshore Baffin Island. The research is used to provide advice to stakeholders for the management of this large offshore area. As of December 2016, the proposed plan is for 2 research expeditions to take place in 2017. The first would occur between July 22 and August 28 on RV Maria S. Merian and the second occurring between August 11 and September 13 onboard CCGS Hudson. The majority of the research proposed for 2017 would take place outside of the NLCA boundary.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.

DATA COLLECTION IN NU:

DATES: July 15, 2017-September 30, 2017

LOCATION: Baffin Bay, Davis Strait, Frobisher Bay

Scientific Research License 02 020 17R-M expires on December 31, 2017

Issued at Iqaluit, NU on March 02, 2017
