## PROJECT SCOPE:

The proposed “HMS Erebus Wreck Site Archaeological Investigation” project (formerly “Underwater Archaeology and Biology Study of the Wreck of HMS Erebus”) and “Visitor Experience at the Erebus Wreck Site” project is located within the Kitikmeot region, approximately 125 kilometres (km) southwest of Gjoa Haven and 250 km southeast of Cambridge Bay at the Wrecks of HMS Erebus and HMS Terror National Historic Site of Canada. The program is proposed to take place from August to September, 2017. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Continue development video and photo documentation of the site
- Continue mapping artefacts and features of HMS Erebus
- Transport cruise ship passengers to and from the National Historic site
- Additional viewing opportunities for guests to snorkel at the surface with support from PC Underwater Archaeology Team

Please visit the NIRB’s public registry online at the link above and look up NIRB File No.: 15YN037 to access all project information, maps, and public comment forms.

## REQUEST FOR COMMENTS

**You are invited to provide the NIRB with your comments regarding whether the proposed project is:**

- likely to arouse significant public concern and, if so, why;
- likely to cause significant adverse ecosystemic or socio-economic effects and, if so, why;
- likely to cause significant adverse impacts on wildlife habitat or Inuit harvest activities and, if so, why;
- a type where the potential adverse effects are highly predictable and can be prevented/managed appropriately with known technology.

Parties are also invited to recommend any specific mitigation measures they feel would be appropriate, and to bring any other matter of importance related to this project proposal to the NIRB’s attention.
