Kelli,

DFO will continue to work with the proponent to ensure that they met all aspect of the Fisheries Act should the proponent apply for a Fisheries Act authorization. DFO recommends that the project processed at the screening level with the terms and conditions.

Ublukkut Jenie,

I was reviewing the comments you submitted for this file and noted that you are discussing a review and would recommend a review continue. I would like to seek clarification regarding this comment.

The NIRB is currently in the screening phase of the project in which it determines whether or not a review is required or if the project could go ahead with recommended terms and conditions. Therefore, the DFO comments that were made

mean that DFO would like the project to undergo a Review to further understand the impacts that it has identified in each of the questions. Am I correct in this interpretation?

I am happy to have a discussion with you via the phone and have a meeting first thing when I get in, but you drop me a line I will get in contact with you ASAP.

Koana and I hope you had a great evening.
Kelli
