Dear Parties;

Please see the attached correspondence from the Nunavut Impact Review Board regarding the upcoming NIRB-facilitated workshop coordinated with the 2017 Nunavut Mining Symposium. Parties will not be required to provide any formal presentation, but are encouraged to be prepared to make strategic points to the group on issues affecting participation in the monitoring process, barriers or communication/reporting issues currently providing challenges to participation, and opportunities for additional coordination.

Should there be questions regarding the sessions, please direct the comments to Tara Arko, Director of Technical Services with the Nunavut Impact Review Board at [tarko@nirb.ca](mailto:tarko@nirb.ca) or call 867-983-4611 direct.
