Re: Summary Report for the NIRB's Review of the Project Specific Monitoring Framework

Dear Parties:

On April 6, 2017 the Nunavut Impact Review Board (NIRB or Board) facilitated a workshop during the 2017 Nunavut Mining Symposium in order to inform the further development of the Project Specific Monitoring Framework of both newly issued and recently amended Project Certificates. The enclosed "*2017 Nunavut Mining Symposium Workshop Summary Report for the NIRB's Project Specific Monitoring Framework*" provides an overview of the comments or questions that were raised during the workshop and subsequent comment period. All the comments and the report are available on the NIRB's website at the following link:

<http://www.nirb.ca/content/correspondence>

While this report is being distributed for information purposes only, please be advised that the comments and questions raised will inform the NIRB's 2018-2022 strategic plan (currently under development) and allow the Board to consider additional educational and collaborative opportunities for Proponents, Regulatory Authorities, other agencies, and communities while conducting its monitoring work. The NIRB is committed to ensuring ongoing public consultation as part of its Monitoring programs. If you have any questions regarding the Summary Report or the NIRB's Monitoring process, contact me directly at (867) 983-4619 or kgillard@nirb.ca.

Sincerely,

Kelli Gillard B.Sc., P.Ag.
Manager, Project Monitoring
Nunavut Impact Review Board

Enclosure (1): *2017 Nunavut Mining Symposium Workshop Summary Report for the NIRB's Project Specific Monitoring Framework* (April 6, 2017)
