

APPROVAL OF
EKALUKTUTIAK HUNTERS AND TRAPPERS ORGANIZATION

We are writing in support of the application of Polar Knowledge Canada to monitor wildlife around Cambridge Bay.

The project will help to define the species using the area and what they need to reproduce and how they migrate after the breeding season.

These projects will employ local summer students and knowledge exchange occurs on site. Results of this project will be presented to the community.

Project title

Migratory and breeding ecology of birds facing global environmental change.

- a. Study invertebrate, small mammals, shorebirds, goose, mammalian and avian predators, diversity, distribution and reproduction. _____

- b. Tracking migration path of migratory species _____

Timeline of Projects: From June 1st 2018 to September 1st 2018.
