## PROJECT SCOPE:

The proposed “Back for the Future: Long-Term Observations of Vegetation and Snowcover in the High Arctic” project is located within the Kitikmeot region, approximately 60 kilometres (km) from Cambridge Bay. The Proponent intends to conduct baseline studies of vegetation and snow conditions and evaluate the long-term changes. The program is proposed to take place from August 2018 to April 2019. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Establishment of a temporary camp for two (2) people;
- Use of a canoe and on foot to access research sites;
- Use of a Twin Otter for transportation to and from study area;
- Measuring snow hardness and thickness.

Please visit the NIRB’s public registry online at the link above and look up NIRB File No.: **18YN025** to access all project information, maps, and public comment forms.

## REQUEST FOR COMMENTS

**You are invited to provide the NIRB with your comments regarding whether the proposed project is:**
