Non-significant Amendment: Screening Not Required; Implications for NIRB Monitoring Program	<p>Proposed amendment not a significant modification to original project, however, changes may have implications for the NIRB's monitoring program and required reporting. Significant Amendment: Screening of Independent Project Proposal Required	<p>Proposed amendment is a significant modification to the original project <u>but</u> the proposed modification is not integrally linked to the original project as assessed by the NIRB, and should be assessed as an independent project proposal.</p>	<p>E.g. Significant Amendment: PC Reconsideration Required	<p>Proposed project amendment is significant <u>and</u> is integrally linked to original project as assessed by the NIRB; assessment of the proposed modification as an independent project proposal is inappropriate; modification assessed via a reconsideration of the Project Certificate.</p>	<p>E.g. Mary River Phase 2 Proposal (NIRB File No. 08MN053)</p>
Significant Amendment: Deemed Unacceptable by NPC	<p>Proposed amendment is a significant modification to the original project and the NPC determines that the modification is <u>not</u> in conformity with an approved land use plan.
