Hi,

I submitted the ECCC response for the Whale Cove Project application 17EA068 to the NIRB on 2018-06-28. The on-line system does not provide a box for no comments at this time. I selected other and added ECCC comments. I received the attached email and the system automatically assigned a **NO** to the question "Do you support the project proposal?" Can you please remove the no and leave that question blank?

In speaking with my colleague Mr. Bernard-Lacaille this issue came up earlier this year and he was told it would be fixed. Until the system is fixed and this issue is resolved, ECCC will be informing the NIRB by email ([info@nirb.ca](mailto:info@nirb.ca)) if we have no comments for a project review. ECCC appreciates that the on-line system is new and has some kinks to be worked out. We support the NIRB in this endeavor and will continue to submit comments (should we have any) on project reviews through the on-line system.

Regards,  
Eva
