## DETAILS

### Non-technical project proposal description

English: Marine Based Scientific Research: This is a low impact study using a vessel of opportunity. The research group is made up of 2 University graduate students and two Canadian pleasure yacht adventurers. The total voyage is from July 28 to August 26, 2018. The work involves a 4 day stop at Croker Bay in a 40 sailing boat for bathymetric & oceanographic surveys. Cruise ends for 2 students at Gjoa Haven, where they will fly back to the US, while Canadian vessel will proceed through the passage. Alternative fly out locations includes Pond Inlet and Resolute. Location: Qikiqtani Region [Croker Bay and Northwest Passage Transit]
