Please indicate if there are any additional concerns with this project:

- MY CONCERN AFTER HEARING THE WORKSHOP PRESENTATION ON THE PROPOSED PROJECT ROAD/PORT WOULD BE SHIPPING TRAFFIC, EAST TO WEST OR WEST TO EAST BECAUSE IT WOULD HAVE A HUGE IMPACT ON OUR MARINE LIFE, WHALES, CHAR, WHITEFISH, COD, INVERTABRATES CARIBOU, POLAR BEARS, SEA BIRDS ESPECIALLY IN JULY THATS OUR WINDOW OF OPPORTUNITY TO HARVEST FOR THE COMMUNITY WHICH WE RELY ON FOR OUR DIET. THIS IS OUR LIVELYHOOD. WE RESPECT THE LAND, IT GIVES US BACK.

Do you have any specific questions or comments with respect to this project, the draft EIS Guidelines, or the Nunavut Impact Review Board?

MY COMMENT WOULD BE TO CONSULT WITH THE COMMUNITY'S OF THE ISR, IN ORDER TO HEAR MORE OR GET MORE INFORMAL QUESTIONS, CONCERNS, VERY HIGH

heritage resources in the area	

Please indicate if there are any additional concerns with this project:

*Concerned about increased shipping traffic. (Western Arctic)
The idea that there will be no impact unless there is a spill or an accident does not fly. There is an impact by them just making a presence or passing through because there will be risk. Hence the point in regards to compensation is that once they make their presence, wildlife/environmental compensation should be addressed.*

Do you have any specific questions or comments with respect to this project, the draft EIS Guidelines, or the Nunavut Impact Review Board?

Very comprehensive, full coverage.
