Phyllis,

The project would appear to be exempt under Schedule 12-1 (5) as we are not aware of any other authorization at this time.

**Subject:** 3BC-CAM0409 Screening Request

Please provide confirmation that the above does or does not required screening from NIRB. Previous NIRB file number 03DN119. Department of National Defence are applying to extend the expiry date of the current licence to September 30, 2009 to ensure full coverage during the assessment and review period for the new Water Licence application to transfer responsibility to Nasittuq Corporation. Due to the urgent circumstances the Board will consider a shorter review period to maintain compliance of an active water licence.
