Dear Mr. Cote, Mr. Kharatyan, Mr. Bathory, Ms. Robinson, Ms. Lear, and Mr. Heath:

RE: NPC File # 148969 [Community-Driven Monitoring of Sea Ice and Eider Duck Populations around the Belcher Islands, Nunavut]

The following works and activities have been proposed in the above-noted project proposal:

1. Scientific Research: An ongoing community based study using time lapse photography to understand how the changing sea ice conditions influence the movements and population dynamics of Eider Ducks.
2. Related NPC File #: 148389, 148665
3. Related NIRB FILE No.: 10YN058
4. Locations : Qikiqtani [Sanikiluaq]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. NPC has determined that this project proposal is outside the area of an applicable regional land use plan. The activities associated with this proposal were previously reviewed by NPC on December 13, 2013, November 28, 2014, December

12, 2016, and most recently on January 5, 2018. In addition, the works and activities listed above were previously screened by the Nunavut Impact Review Board (NIRB FILE No. 10YN058). The above-noted project proposal is exempt from screening by the NIRB because the NPC is of the understanding that it does not change the general scope of the original or previously amended project activities, and the exceptions noted in Section 12.4.3 (a) and (b) of the Nunavut Agreement do not apply.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:

This decision applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required.
