

## **NIRB Application for Screening #125451**

### **ESHL Sports Hunts**

**Application Type:** New

**Project Type:** Tourism

**Application Date:** 2/18/2019 3:49:53 PM

**Period of operation:** from 0001-01-01 to 0001-01-01

**Proposed Authorization:** from 0001-01-01 to 0001-01-01

**Project Proponent:** HTO Cambridge Bay  
Ekaluktutiak Hunters and Trapper Organization  
PO Box 1270  
CAMBRIDGE BAY NU X0B 0C0  
Canada  
Phone Number:: 867-983-2426, Fax Number:: 867-983-2427

## DETAILS

### Non-technical project proposal description

English: Plain Language Summary Who: Ekaluktutiak Hunters and Trappers Organization (EHTO) What: Guided Sports Hunts to be conducted by EHTO Certified Inuit Guides. It will be conducted in groups of 4 for a maximum of a six-day period. Total Number of tourists would not exceed 12 in the spring and 15 in the summer/fall. There are two existing EHTO cabins that will be used during these periods. Transportation will be by snowmobile in the March/April period and Boat/ATV in the Summer/Fall period. Why: EHTO Certified Inuit Guides will educate both sport hunting and adventure tourists on traditional hunting practices and provide opportunities to experience Inuit culture and way of life while traveling on the land. The EHTO and Guides will receive substantial tourism dollars. Cambridge Bay will also benefit financially from the tourists staying in the community on the first and last night of their hunt. All activities will be carried out under the Nunavut Wildlife Act and by EHTO's policies and procedures ensuring no waste or debris will be left on the land. Spring travel does not disturb the land at all and summer travel by boat will not disturb the land. Where: The majority of the tourism activity will take place on Queen Maud Gulf Bird Sanctuary near Ellis River and by the existing EHTO cabins. When: The proposed dates are March 1 to April 15 and August 1 to October 1.

### Personnel

Personnel on site: 4

Days on site: 5

Total Person days: 20

Operations Phase: from 2019-02-04 to 2019-08-21

## Activities

Location	Activity Type	Land Status	Site history	Site archaeological or paleontological value	Proximity to the nearest communities and any protected areas
Ellice River Cabin	Tourism Activities	Inuit Owned Surface Lands	N/A	N/A	N/A

## Community Involvement & Regional Benefits

Community	Name	Organization	Date Contacted
Cambridge Bay	Beverly Maksagak	Ekaluktutiak Hunters and Trappers Organization	2019-02-06

## Authorizations

Indicate the areas in which the project is located:

Kitikmeot

### Authorizations

Regulatory Authority	Authorization Description	Current Status	Date Issued / Applied	Expiry Date
Canadian Wildlife Service	Tourism activities with only qualified Inuit Guides, it will be conducted in groups of 4 for a maximum of a six-day period. It will take place in the Queen Maud Gulf Bird Sanctuary. This will promote tourism, ecotourism and provide income to the community.	Applied, Decision Pending	2019-02-06	2022-10-15

### Project transportation types

Transportation Type	Proposed Use	Length of Use
Water	Transportation of tourists and Guides by boat from Cambridge Bay to Queen Maud Gulf Bird Sanctuary	
Land	Transportation of tourists and Guides by snowmobile or ATV from Cambridge Bay to Queen Maud Gulf Bird Sanctuary	

### Project accomodation types

Permanent Camp

## Material Use

Equipment to be used (including drills, pumps, aircraft, vehicles, etc)

Equipment Type	Quantity	Size - Dimensions	Proposed Use
Snowmobile	2	55x132x44	Transportation of hunters and equipment to hunt site and shelter
ATV	2	83x47x50	Transportation of hunters and equipment to hunt site and shelter during summer hunts
Boat	2 -4	20' x 6'x8'	Transportation to Queen Maud Gulf Bird Sanctuary in the summer months
Portable Generator	1	27x27x25	Heating of cabins in Sanctuary

## Detail Fuel and Hazardous Material Use

Detail fuel material use:	Fuel Type	Number of containers	Container Capacity	Total Amount	Units	Proposed Use
Diesel	fuel	2	90	180	Gallons	Heating
Gasoline	fuel	1	45	45	Gallons	Fuel for transportation

## Water Consumption

Daily amount (m3)	Proposed water retrieval methods	Proposed water retrieval location
901	By hand or bucket	Ellice River

# Waste

## Waste Management

Project Activity	Type of Waste	Projected Amount Generated	Method of Disposal	Additional treatment procedures
Environmental monitoring site	Greywater	1 Gallon	To be disposed of in Tundra away from water flow areas	To be brought back to the community if necessary
Environmental monitoring site	Sewage (human waste)	2 gallons	Honey pot	Brought back to community for proper disposal

### Environmental Impacts:

All possible methods to reduce and minimize environmental impacts on the environment and wildlife disturbance will be used. If fuel spillage occurs -CSA Spill Kits will be used and it will be brought back for proper disposal in the community
