

Demande de la CNER faisant l'objet d'un examen préalable #125451
ESHL Sports Hunts

DÉTAILS

Description non technique de la proposition de projet

Anglais: Plain Language Summary Who: Ekaluktutiak Hunters and Trappers Organization (EHTO) What: Guided Sports Hunts to be conducted by EHTO Certified Inuit Guides. It will be conducted in groups of 4 for a maximum of a six-day period. Total Number of tourists would not exceed 12 in the spring and 15 in the summer/fall. There are two existing EHTO cabins that will be used during these periods. Transportation will be by snowmobile in the March/April period and Boat/ATV in the Summer/Fall period. Why: EHTO Certified Inuit Guides will educate both sport hunting and adventure tourists on traditional hunting practices and provide opportunities to experience Inuit culture and way of life while traveling on the land. The EHTO and Guides will receive substantial tourism dollars. Cambridge Bay will also benefit financially from the tourists staying in the community on the first and last night of their hunt. All activities will be carried out under the Nunavut Wildlife Act and by EHTO's policies and procedures ensuring no waste or debris will be left on the land. Spring travel does not disturb the land at all and summer travel by boat will not disturb the land. Where: The majority of the tourism activity will take place on Queen Maud Gulf Bird Sanctuary near Ellis River and by the existing EHTO cabins. When: The proposed dates are March 1 to April 15 and August 1 to October 1.

Autorisations

Organisme de régulation	Description des autorisations	État actuel	Date de l'émission/de la demande	Date d'échéance
Service canadien de la faune	Tourism activities with only qualified Inuit Guides, it will be conducted in groups of 4 for a maximum of a six-day period. It will take place in the Queen Maud Gulf Bird Sanctuary. This will promote tourism, ecotourism and provide income to the community.	Applied, Decision Pending	2019-02-06	2022-10-15

Project transportation types

Transportation Type	Utilisation proposée	Length of Use
Water	Transportation of tourists and Guides by boat from Cambridge Bay to Queen Maud Gulf Bird Sanctuary	
Land	Transportation of tourists and Guides by snowmobile or ATV from Cambridge Bay to Queen Maud Gulf Bird Sanctuary	

Project accomodation types

Permanent Camp

Utilisation de matériel

Équipement à utiliser (y compris les perceuses, les pompes, les aéronefs, les véhicules, etc.)

Type d'équipement	Quantité	Taille – Dimensions	Utilisation proposée
Snowmobile	2	55x132x44	Transportation of hunters and equipment to hunt site and shelter
ATV	2	83x47x50	Transportation of hunters and equipment to hunt site and shelter during summer hunts
Boat	2 -4	20' x 6'x8'	Transportation to Queen Maud Gulf Bird Sanctuary in the summer months
Portable Generator	1	27x27x25	Heating of cabins in Sanctuary

Décrivez l'utilisation du carburant et des marchandises dangereuses

Décrivez l'utilisation de carburant :	Type de carburant	Nombre de conteneurs	Capacité du conteneur	Quantité totale	Unités	Utilisation proposée
Diesel	fuel	2	90	180	Gallons	Heating
Gasoline	fuel	1	45	45	Gallons	Fuel for transportation

Consommation d'eau

Quantité quotidienne (m3)	Méthodes de récupération de l'eau proposées	Emplacement de récupération de l'eau proposé
901	By hand or bucket	Ellice River

Déchets

Gestion des déchets

Activités du projet	Type des déchets	Quantité prévue	Méthode d'élimination	Procédures de traitement supplémentaires
Environmental monitoring site	Eaux grises	1 Gallon	To be disposed of in Tundra away from water flow areas	To be brought back to the community if necessary
Environmental monitoring site	Eaux usées (matières de vidange)	2 gallons	Honey pot	Brought back to community for proper disposal

Répercussions environnementales :

All possible methods to reduce and minimize environmental impacts on the environment and wildlife disturbance will be used. If fuel spillage occurs -CSA Spill Kits will be used and it will be brought back for proper disposal in the community
