Ottawa, Ontario, K1A 0E4

To Whom It May Concern,

**Re: Letter of Community Support-  
Igluligaarjuk Midnight Sun Project**

On behalf of the Hamlet of Chesterfield Inlet, as authorized by Hamlet Council motion #062/18, please accept this letter as a formal commitment to support iSolara Solar Power's project through the Clean Energy for Rural and Remote Communities: Demonstration program stream with Natural Resources Canada.

The Hamlet of Chesterfield Inlet will work with iSolara Solar Power to demonstrate their innovative Igluligaarjuk Midnight Sun Project will reduce our reliance on diesel fuel. iSolara Solar Power and the Hamlet of Chesterfield Inlet are continuing our community engagement plan together. We have identified David Kattegatsiak, our Economic Development Officer, as our Community Champion for this project.

iSolara Solar Power will ensure local Inuit labour is maximized for the construction of this project as well as provide training to ensure the long term operation and maintenance of the system. We are excited that this project will reduce the cost of living in our community and spur future economic development in our community.

By participating with iSolara Solar Power in the Clean Energy for Rural and Remote Communities, we will demonstrate innovative technologies to reduce diesel use, build community skills, and build a more resilient electricity system for our community.

Sincerely

Roy Mullins  
Senior Administration Officer  
Hamlet of Chesterfield Inlet

c.c. Mayor Simeonie Sammurtok
