

**SCREENING REVIEW OF  
THE NUNAVUT CLEAN ENERGY PROJECTS,  
RANKIN INLET and BAKER LAKE**

**NIRB File No. 19XN014**

**Prepared By:**

**KIVALLIQ INUIT ASSOCIATION**

**April 11, 2019**

**Prepared For:**

**NUNAVUT IMPACT REVIEW BOARD**

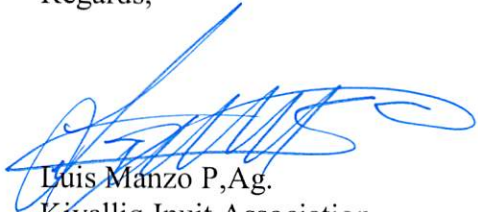

## **EXECUTIVE SUMMARY**

The Kivalliq Inuit Association (KivIA) have completed a screening level review of the Nunavut Clean Energy Projects: Rankin Inlet and Baker Lake related to NIRB File No. 19XN014.

The signed “Comment for NIRB Screenings” form is located on page 3 of this document. Answers to the additional NIRB questions are as follows:

- 1) Before KivIA begins reviewing the technical component of the project proposal, we are requesting the methodology used to collect information in the community consultations.
- 2) Inuit Traditional Knowledge (TK) is a fundamental component in this project and the KivIA would like to review documentation gathered in regards to TK.
- 3) The local Hunter and Trappers Organizations needs to be consulted to identify potential impacts to wildlife, traditional harvesting locations and sensitive areas and identify mitigation venues
- 4) The project proposal is of the type where the potential adverse effects are highly predictable with known technology, therefore; the proponent should address these areas before the certificate is granted.
- 5) The KivIA is requesting the proponent respond to all comment submissions before NIRB executes the certificate.

Regards,

Luis Manzo P, Ag.
