# QANURITTUT

# Tukihianaqtunik havaariyauyumayumik uqauhiuyun

**Qablunaatitut:** Snow Mineral Property: Agnico Eagle Mines Limited prepared the present application to obtain land use authorizations permitting mineral prospection activities and geophysical surveys on the expanded “Snow” mineral property. This new property is located between approximately 55km and 80km mostly southwest of the Whale Cove Hamlet and is contiguous to the Snow property where exploration activities have already been authorized by NPC decision 148849 and NIRB decision 17EA068. For this area, workers are planned to be accommodated at the Huckleberry exploration camp and from there, will be transported to the exploration areas using a helicopter. Activities are planned to start in summer 2019 and continue annually.

**Uiviitut:** La propriété minérale Snow: Les Mines Agnico Eagle Ltée. a préparé cette application dans le but d'obtenir les autorisations requises afin de conduire des travaux de prospection et de géophysique sur une nouvelle propriété minérale. Cette nouvelle propriété se situe approximativement de 55km à 80km au sud-ouest de la communauté de Whale Cove et est contiguë à la propriété Snow originale où des activités d'exploration ont déjà été autorisés par le NPC via la décision 148849 et par le NIRB via la décision 17EA068. Pour ce secteur, les travailleurs sont prévus être logés au camp d'exploration Huckleberry d'où ils seront transportés en utilisant un hélicoptère. Ces travaux sont prévus débuter à l'été 2019 et se poursuivre annuellement.

## **Personnel**

Personnel on site: 5

Days on site: 10

Total Person days: 50

Operations Phase: from 2018-07-15 to 2025-09-30

### Avatiliriniqmut Ayurhautingit:

With the limited level of activity proposed, the impacts are planned to be limited and highly predictable. The application of the conditions from the different authorizations will reduce potential impacts at a minimum.

This expansion of the mineral property is located both, on IOL and Crown Land and is contiguous to the Hudson Bay.

**Qanurittuq Ittunik Avatinga: Inuuhimayunut Avatinga**

An assessment of the area would be done should a future development is planned (example: mining).

**Qanurittuq Ittunik Avatinga: Inungit-maniliurutingit Avatinga**

The property is located in the area located between 55km and 80km of the Whale Cove community.

**Miscellaneous Project Information****Naunaiyainiq ukuninnga Ayurhautingit unalu Piumayaat Ikikliyuumiutinahuarutit**

Potential impact on the caribou will be reduced by applying mitigation measures described in the management plans and by the respect of the conditions associated to the authorizations required to perform the exploration activities. Potential impact related to hydrocarbon spills will be limited with the application of the best practices and the use of the Spill Contingency and Response Plan.

**Tamatkiumayunik Ihuikgutivaktunik**

The proposed activities are planned to be low scale, but a future development (example: mining) would have to be assessed by an environmental impact study.
