**Attachments:** Smartice Strategic Emergency Management Plan final.pdf

Okay thanks Talia. The Emergency Management Plan is attached.

For the mobile sensor I have,  
Equipment Type: Qamutik carrying crate containing mobile sensor  
Quantity: 2 (1 per community)  
Dimensions: 192 in. x 30 in. x 36 in.  
Proposed Use: Will be towed behind snowmobile along sea-ice travel routes to generate ice thickness measurements

Mark

Good Afternoon Talia,

I've gathered together the information that you've asked for but I don't think it's possible to add it to the application since it's been submitted. Is it best to send this through an email?

Thanks,

Mark

Good morning Connie,

It appears that there is missing required information on your online application materials.

- Will you be using mobile ice sensors? If so, they were not included on the *material use & waste* tab under *equipment*; and
- It was stated in the application materials the use of the *SmartICE's Emergency Management Plan*, we cannot locate this, please submit the plan.

Please don't hesitate to contact me directly by phone at (867) 983-5627 or by email at [tmaksagak@nirb.ca](mailto:tmaksagak@nirb.ca) if you have any questions.

Best regards,

**Talia Maksagak**
