Hi Erin,

Agnico Eagle is requesting an extension to July 12, 2019 for the submission of our responses regarding comments received on the 2018 Annual Report. Most of our resources person at Agnico along with some of our keys consultant where involved in permitting projects, among other, in the Whale Tail Pit Expansion Technical Hearing held in the week of June 9 in Baker Lake, which have bring delay in our capacity to provided answer to the 92 comments received from regulators. Moreover, summer vacation make resources less available and make it difficult for Agnico to well analyses all the comments received from regulators.

Hi Marie-Pier,

The NIRB is considering your extension request. I had the chance to speak with Robin in person and he provided me with some justification for the request. Could you please provide in writing (email is fine) what extension you are requesting and include the justification provided, for the purposes of keeping it on the public record? This is required so that parties/public is aware of the reason for the extension, if granted.

Look forward to hearing from you.  
Thanks,

*Erin Reimer*
