**Please describe the concerns indicated above:**  
 near whale cove have one of the best quality of water  
 Calving grounds are close to whale cove, it has fish, beluga  
 seals and most important, fish (Arctic Char) There's a place  
 called "Tavani" historical site. People harvest Caribou not only  
 from whale cove but also Arviat, + Rankin hunters harvest  
 near whale cove

**Do you have any suggestions or recommendations for this application?**  
 during the time of Caribou migration, spring/  
 + summer + fall, we advise to close the mining  
 site during migration. because it's migration  
 route is close to the mining site  
 during the year winter, spring, summer, fall.

**Do you support the project proposal? Yes ☐ No ☒ Any additional comments?**  
 Also, the Caribou<sup>water</sup> crossing paths  
 on rivers be undisturbed during their  
 annual migration. We don't want mining projects  
 opening near Calving grounds
