Dear Dr. Amuno,

Re: Notice of Screening for the Queen's University's "A Survey of Mercury Levels Within Edible Plants, Fungi and Soil in Iqaluit and Surrounding Areas" Project Proposal

On July 22, 2019, the Nunavut Impact Review Board (NIRB) invited parties to comment on Queen's University's "A survey of mercury levels within edible plants, fungi and soil in Iqaluit and surrounding areas" Project Proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) reviewed the project proposal and the proposed project specific terms and conditions (Notice of Minor Screening and Comment Request – Appendix A).

Based on inclusion of the proposed project specific terms and conditions CIRNAC has no further comments, or additional terms and conditions to recommend at this time.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the proponent, as necessary, throughout any further review of this project. If you have any questions, please contact Richard Bingley at (867) 975-4556, or by e-mail at richard.bingley2@canada.ca.

Sincerely,

Felexce Ngwa
Manager, Impact Assessment
