**Re: Notice of Screening for University of Waterloo's "Coastal Environmental Baseline Program: Baseline Mercury Levels in Frobisher Bay Fish and Invertebrates" Project Proposal**

Dr. Amuno,

On August 8, 2019 the Nunavut Impact Review Board (NIRB) invited parties to comment on the University of Waterloo's "Coastal Environmental Baseline Program: Baseline Mercury Levels in Frobisher Bay Fish and Invertebrates" project proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) has reviewed the project proposal and related documents, and has no comments (or additional terms and conditions) to offer at this time pertaining to the NIRB's request.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the Proponent throughout any further review phases related to this project. Should you have any questions, please contact Richard Bingley at (867) 975-4556 or by e-mail at [richard.bingley2@canada.ca](mailto:richard.bingley2@canada.ca).

Sincerely,

Felexce Ngwa  
Manager, Impact Assessment
