

## COMMENT FORM FOR NIRB SCREENINGS

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:

<b>Project Proposal Title:</b>	RV David Thompson Eastern Arctic Operations 2019		
<b>Proponent:</b>	Parks Canada		
<b>Location:</b>	Kitikmeot/Qikiqtani (North Baffin)		
<b>Comments Due By:</b>	<b>September 13, 2019</b>	<b>NIRB #:</b>	<b>19YN040</b>

**Indicate your concerns about the project proposal below:**

---	---

**Please describe the concerns indicated above:**

Marine mammal disturbance:  
 Section 7 of the Marine Mammal Regulations (*Fisheries Act*) prohibits the disturbance of marine mammals. Generally, disturbance is interpreted as disruption to an animal's normal life processes, resulting from intentional human activities (e.g., to pursue, accompany, overtake, encircle, approach repeatedly, hunt, disperse, drive or herd individuals or groups of marine mammals). This applies equally to divers, kayaks, motor boats and aircraft. Disturbance response thresholds vary among individuals, species and locations.

**Do you have any suggestions or recommendations for this application?**

DFO recommends that watercraft should survey the area for Marine Mammals to avoid disturbing them. If marine mammals are encountered, and remain in the area, effort should be made to avoid disturbing them by rerouting, slowly navigating around their location at a reduced speed and maintaining their distance. The watercraft should not accelerate within 800 m of whales and 250 m of other marine mammals. The marine mammals should not be approached, in general, within 100 m for common species and 400 m for Species at Risk. Please see the distances set out in Section 5 of the Marine Mammal Regulations for additional setback based on species and location (<https://laws-lois.justice.gc.ca/eng/regulations/SOR-93-56/page-11.html#docCont>).

The Marine Mammal Regulations apply to all boaters including commercial and recreational boaters. However, a vessel “in transit” would not be considered to disturb marine mammals for

8. Comment Form Distribution

the purposes of the regulations. The Marine Mammal Regulations do not apply provided the cruise ship does not divert its course for the purposes of marine mammal watching.

**Do you support the project proposal? Yes ☐ No ☐ Any additional comments?**

It is your *Duty to Notify* DFO if you have caused, or are about to cause, the death of fish by means other than fishing and/or the harmful alteration, disruption or destruction of fish habitat. Such notifications should be directed to (<http://www.dfo-mpo.gc.ca/pnw-ppe/CONTACT-eng.html>)
