**Re: Notice of Screening for Carleton University's "Microplastics in beach sediment: Collecting baseline data for microplastic contamination around Iqaluit and developing tools for effective community-based monitoring" Project Proposal**

Ms. Otokiak,

On September 9, 2019 the Nunavut Impact Review Board (NIRB) invited parties to comment on the Carleton University's "Microplastics in beach sediment: Collecting baseline data for microplastic contamination around Iqaluit and developing tools for effective community-based monitoring" project proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) has reviewed the project proposal, and has no comments or additional terms and conditions to offer at this time pertaining to the NIRB's request.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the Proponent throughout any further review phases related to this project. Should you have any questions, please contact Richard Bingley at (867) 975-4556 or by e-mail at [richard.bingley2@canada.ca](mailto:richard.bingley2@canada.ca).

Sincerely,

Felexce Ngwa  
Manager, Impact Assessment
