

Solomon Amuno
Technical Advisor II
Nunavut Impact Review Board

October 2, 2019

Re: Comments on the Draft Agenda for the upcoming Public Hearing for the NIRB's Assessment of the Phase 2 Proposal

Dear Solomon,

Baffinland has reviewed the Draft Agenda circulated September 16, 2019 for the upcoming Public Hearing for the Nunavut Impact Review Board (the Board)'s assessment of the Phase 2 Proposal and offers the following recommendations for the Board's consideration:

- Increase the time allotted to the Terrestrial Environment session on Day 1 from 45 minutes to 60 minutes.
- Explicitly include 'Adaptive Management' in the Management Plans and Monitoring Programs session as follows, "Adaptive Management, Management Plans and Monitoring Programs".

Should any intervenors request revisions to any of the topics or allocated time to the specific topics described in the Technical Sessions, Baffinland requests an opportunity to engage with NIRB before the Final Agenda is released on October 11, 2019, as Baffinland has already carried out significant work to develop presentations based on the topics and timing described in the Draft Agenda.

At this time, Baffinland confirms the participation of the individuals described in Appendix A to this letter in the public hearing.

Baffinland appreciates the continued efforts of the Board in administering the Phase 2 reconsideration process in a timely and effective manner. Should you have any questions or concerns please contact me at your earliest convenience.

Best Regards,

A handwritten signature in black ink, appearing to read "Lou Kamermans".

Lou Kamermans
Director, Sustainable Development

Cc: Ryan Barry, Cory Barker, Tara Arko, NIRB
Jared Ottenhof, QIA
Megan Lord-Hoyle, Grant Goddard, BIM
