

October 29, 2019

Ryan Barry
Executive Director
Nunavut Impact Review Board
info@NIRB.ca

Dear Mr. Barry,

Please find attached to this covering letter, submissions from individuals working at the Mary River Project. Baffinland wanted to ensure that those working at Mary River had the opportunity to share their thoughts on the Phase 2 Proposal with the Nunavut Impact Review Board.

Baffinland informed employees that should they wish to provide feedback on the Phase 2 Proposal they should do so. Employees were informed that their submissions would be shared with the Board by the Company.

Baffinland will be submitting each and every submission that has been received to ensure that our employees are given the opportunity to engage in the environmental assessment process. The Company expects to be making further submissions of this nature until the public record for the Phase 2 review process is closed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Megan Lord-Hoyle".

Megan Lord- Hoyle
Vice President, Sustainable Development
Baffinland Iron Mines

Encl.

THE NUNAVUT IMPACT REVIEW BOARD IS HOLDING PUBLIC HEARINGS ON THE PHASE 2 PROPOSAL AND WE WANT TO LET THEM KNOW WHAT OUR EMPLOYEES THINK ABOUT THE PROPOSED PROJECT. PLEASE FILL OUT THIS FORM AND PLACE IT IN THE DROP BOX LOCATED AT SECURITY OF EACH CAMP. BAFFINLAND WILL SUBMIT THIS TO THE NUNAVUT IMPACT REVIEW BOARD ON YOUR BEHALF.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

On July 7, 2017 I made my very first trip to Nunavut. For years I've wanted to visit and this job gave me the opportunity. This experience has opened me to new cultures and people. I have tried new foods, traditions etc. I have made new friends with southern people and Northern people which I now consider them my family. We spend 60% or more of our time in Nunavut so I would now proudly say that I am a resident of this beautiful territory.

If mining were to cease here, I would like many
have to find work somewhere else. Meaning friendships
would slowly demishes and a new chapter would begin.
Life might go on but it would now be the same
as I have finally found a job ~~and~~ in which it
is the people and the environment that wants
to make me stay. Rather most times it being
the paycheck.

Basically what I'm trying to say is,
If phase 2 doesn't go ahead and the mine
has to discontinue production, I will not
lose a job. I WILL LOSE A FAMILY.

Thankful for the work while most industries are hurting.
I think we all know this approval needs to go through as it all comes down to dollars + cents. I am looking forward to being apart of the rail line team. It will be a great experience for my career. We all agree there has to be minimal impact on the land and sea. I think this is where Baffinlands teams need to work harder to share their findings with the local communities and be honest with them. For some reason there is a disconnect between PEM and the local communities. For us from the south, we understand there will be some impacts to the land and sea, but we do not live off it like the communities do here. We need to prove to them (local communities), that the Phase 2 project will be best in the long term for the land.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

Changing the transportation method from the trucking will only benefit the environment if the combined impact of the train + extra vessels is less than all the truck movement. Dust will however be reduced. The extra royalties for the Inuit communities is positive. Less impact on the surrounding fauna is also positive. Keep the environment in mind and I support phase 2 Baffinland.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

This phase 2 proposal look to be a excellent improvement for the environment, cutting down air pollution by moving material (ore) by train and cutting B-train trucks from 140 daily to 10 daily trip by Train! Big improvement for wildlife disturbance and air pollution. as a worker in Baffinland I'm agreeing 100% for this new phase 2 projet.

NOTE! and more work for inuits ~~people~~ and southern ^{altogether}

As an Inuk working for Baffinland, the work environment has been nothing short of interesting. To be a small part of the Inuit work force has given me hopes that BIM is attempting to fill the gaps through training, helping in education. As BIM hopes to expand production and go through with Phase 2, I have hopes that it will continue improving and encouraging Inuit to work. I'm sure it has socio-economic impacts to the communities immediately affected, so I expect BIM to do its role in implementing all rights of Inuit under the IIBA, as well as improving on them.

Phase 2 means that my family won't have to worry, and I will have the opportunity to gain more skills in my trade. I also will have the opportunity to see this project grow from basically nothing to having the first train in the north. ~~it's~~ creating more jobs with less impact to the environment. I am excited to see ~~the~~ what the future brings.

Leading by example with environmental issues-

Developing long Term job opportunities for Locals

and Non Locals - which take the stress off the

people that work here, so they can plan for the future

with thier families, knowing they can have a steady

income. This translates to a happier and healthier

work force.

As an engineering technologist I am excited by the opportunity to work on a project of this scale. Building a 104 km long rail road in the high arctic is going to be challenging and will make for a great experience to include in my work history. If we are successful it will prove to the world that development at this scale in the arctic is possible and hopefully it encourages even more investments and opportunities to work in the arctic. I want to be a part of this project and I want to help it succeed.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

The phase 2 proposal means a lot of meaningful impacts to everyone. For me and the company I work for, it means employment of our team and positive growth. It is also exciting to work on the most northern railway in the world and the largest track project in North America in a generation. For Nunavut and it's residents, Phase 2 will help increase royalties to the Territory while extracting oil at an increased rate. All while doing it with less environmental disturbance such as greenhouse gas, wildlife impact and dust and noise along the route. I am looking forward to being part of this project.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

It means a lot to me. It's a win-win situation for everyone. In one front, and as it does for many workers here (both Inuit and Non-Inuit) the Phase 2 project allows me to work and earn a living and put food on the table for my family.

In the other front, the output of the Iron Ore from the Ject is beneficial to the world at large. In addition, Project Lit this one brings more civilization to the host community. The benefits are enormous. They range from enhancing population growth - more infrastructure & social amenities provisions. The building of a railway system is also a huge one that the local communities can leverage on through partnership to boost transportation system. Busier airport at Igaliut and Mary River is another success fruit that the communities around can harvest to their advantage. This is all because of the project 2. Much busier seaport can also boost the movement of goods and services to the Nunavut

communities. It's all because of the Phase 2 Project. There are a lot of other benefits that the communities can harvest for the good.

Phase II will secure Baffinlands future
by increasing efficiency and sustainability.
The increased work force required for the
Phase II development & operation will open
up additional jobs. Baffinland has developed
apprenticeship programs and has always
welcomed Inuit to the team. The jobs
and income for the Northern communities may
be beneficial in improving quality of life,
develop skilled workers & improve community wellness

A good push into long term operation of a mine only to improve its success, money and workers condition. Doing Northern Shift work gives people of the east coast a chance at Better Salary and a Better life than working at home for low wages/income. This phase will need plenty more workers, which will definitely help the community's all over Canada. As in Better work, wages, time off etc.

THE PHASE 2 PROPOSAL AND COMPLETION WILL BE
A VERY POSITIVE THING TO HAPPEN FOR THE PEOPLE
WHO LIVE IN NUNAVUT AND ELSEWHERE.
NUNAVUT WILL BENEFIT FINANCIALLY FROM THE
THIS GOVT. SHARE OF THE ORE PRODUCTION AND THEN
IT THEN COULD PASS THOSE BENEFITS ON TO THE
PEOPLE OF NUNAVUT. THE PEOPLE OUTSIDE OF NUNAVUT
WILL BE ABLE TO HAVE WORK FOR THE DURATION OF THE PROJECT.
THE ENVIRONMENT WILL BE A LARGE BENEFIT FOR THE RAIL
LINE DEVELOPMENT WITH A DRASTIC REDUCTION OF DUST
AND BURN IN EMISSIONS BY USING RAIL INSTEAD OF
HAUL TRUCKS.

To me it means a great opportunity for the Qikiqtaaluk region and its residents; Possibilities of employment, training and royalties. I think Baffinland does things in a way that doesn't harm the environment and that the exploration of the area are other money possibilities in a region where there aren't many in the communities. It's great to be part of this project and I hope it keeps moving forward. The approval of phase 2 would really mean a sustainable income for the region and more independence for its residents.

SHARE YOUR THOUGHTS ON WHAT THE PHASE 2 PROPOSAL MEANS TO YOU:

For me, it means that we are going to go forward with a major mining project for our country. BIM project will generate quality jobs for Canadians, for the next 100 years. It's of the utmost importance that it goes on with the environmental regulation in place there will be accountability on BIM and the project will be a good thing for the country and the Natives communities all around Baffinland.

In my opinion on the Phase 2, I honestly cannot say I support it or not. For this reason, I have pros and cons about it.

Pros: Plenty of job openings, faster process of transporting iron ores and economic growth

Cons: Environmental habitats of animals, disruptions of their way of life/calving grounds and loss of animals we hunt.
