North Baffin Island Caribou Population Cycle

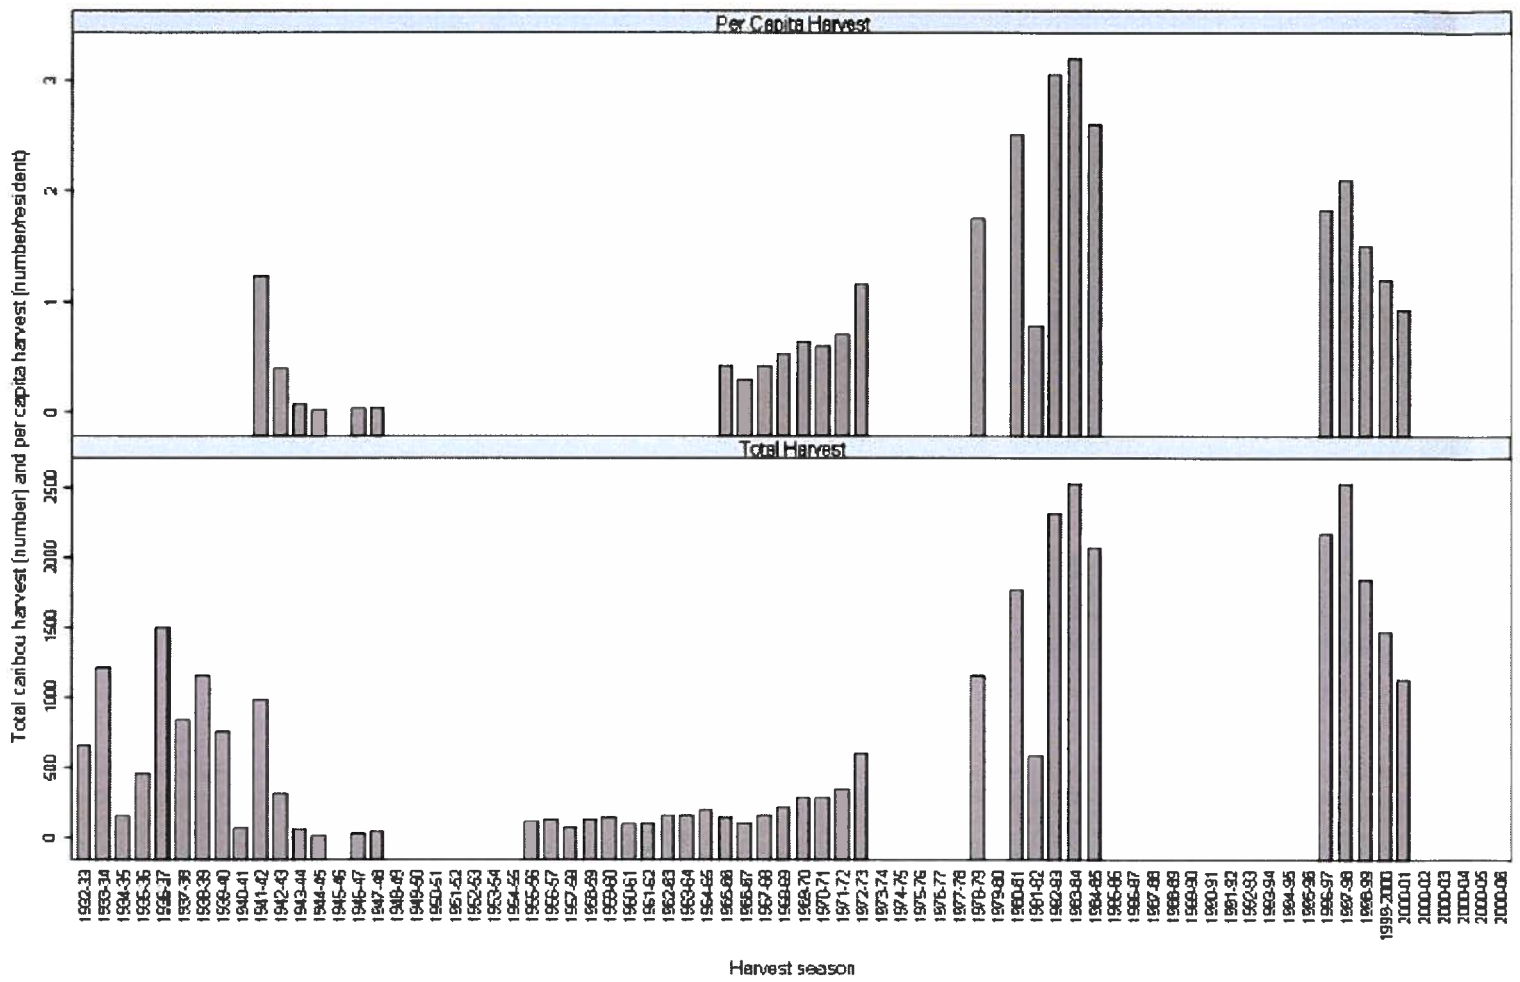

Figure 3. Summary of reported or estimated caribou harvest for Pond Inlet, Nunavut, 1932–2006.

Note: Data are summarized as per capita caribou harvest (top) and total caribou harvested (bottom) by year.

FEIS Appendix 6-F Wildlife Baseline Report, Figure 3

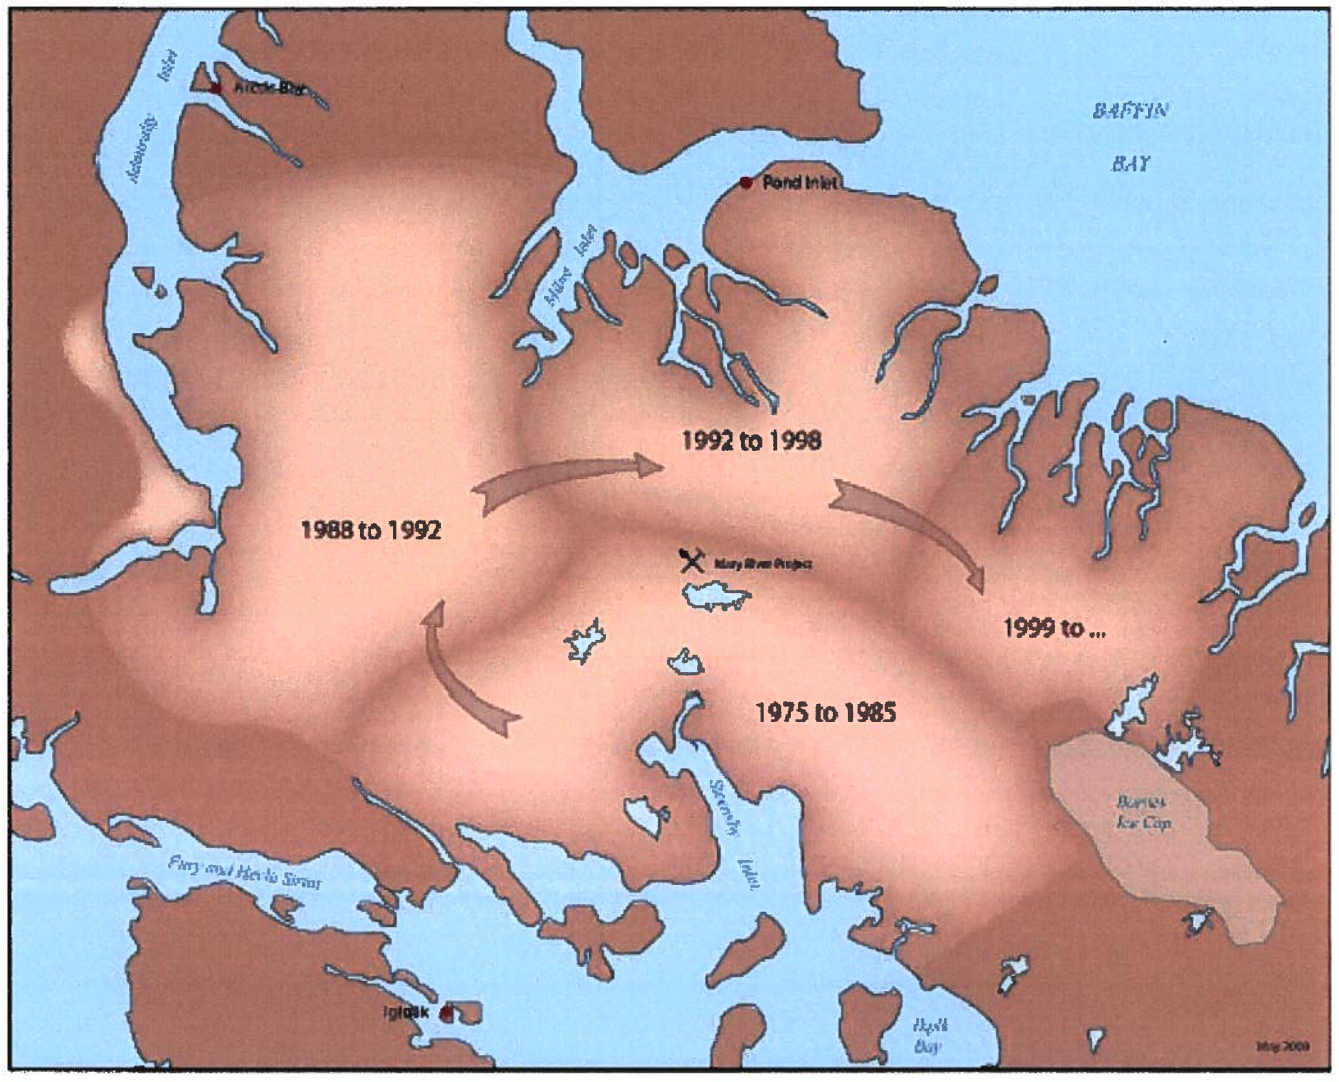

Figure 5. Estimated distribution of caribou during the last high in the population cycle on north Baffin Island, Nunavut.

(Adapted from map drawn by Malachi Arreak and discussion at Pond Inlet caribou focus working group meeting, February 13, 2008.)
