**Re: Suspension of Assessment Activities for Canadian Nuclear Laboratories’  
“Predicting Environmental Health Risk from Radioactivity in the Canadian Arctic”  
Project Proposal, Pursuant to NuPPAA Subsection 143(2)**

Dear Dr. Lars Brinkmann,

On August 24, 2016 the Nunavut Impact Review Board (NIRB or Board) received the enclosed correspondence from Canadian Nuclear Laboratories in which a request was made for the suspension of the NIRB’s assessment of the “Predicting Environmental Health Risk from Radioactivity in the Canadian Arctic” project proposal, NIRB File No.: 16YN047. Having taken into consideration the Proponent’s comments in respect of the requested suspension, pursuant to subsection 143(2) of the *Nunavut Planning and Project Assessment Act* (NuPPAA) the Board is hereby suspending the assessment of the “Predicting Environmental Health Risk from Radioactivity in the Canadian Arctic” project proposal as requested, effective **October 3, 2016**.

Should the Proponent wish to resume the assessment in the future, a written request must be filed directly with the NIRB; please note that if such a written request has not been filed within three years of the suspension date (October 3, 2016), the assessment of the project will be terminated as per subsection 143(4) of the NuPPAA.

If you have any questions regarding the suspension of this assessment, please contact Davin St. Pierre, Technical Advisor II directly at (867) 983-4615 or at [dstpierre@nirb.ca](mailto:dstpierre@nirb.ca).

Sincerely,

A handwritten signature in black ink that reads "Ryan Barry". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Ryan Barry  
Executive Director  
Nunavut Impact Review Board
